

# Upgrade to Lynx5 today

## Upgrade to Lynx5 for a faster, smoother, simpler experience – FREE

Cleverlynx has been given a complete visual and practical overhaul, resulting in Lynx5 – an easy to use software with a sleek user interface.

#### What's New?

The new **Media Manager** allows you to embed videos directly into your lessons, without the need to go to an external browser link.

Access all your tools from the condensed **Tools Menu**, meaning that you spend less time clicking in different menus – now everything is in one, easy to access place using the simple touch interface.

The new **Lesson Dashboard** makes it easier to find recent lessons, and you can also open multiple lessons simultaneously, making it easy for you to switch between lessons.

Access **Lynx5 Updates** instantly, with the Lynx5 twitter feed showing on the Lynx5 home screen, meaning you never miss out on news, software updates and fixes.

Lynx5 supports **Ultra HD 4K** resolution content, so you can view crystal clear images and videos if using a 4K resolution Clevertouch screen.

With the new **Lynx5 file format** you can easily access Lynx5 files.

Let your students use Lynx5 without having to worry about inappropriate language as a **Profanity Filter** is now built in to the software.

## Lynx5 still has all the features you are used to from Cleverlynx:
