

MEET SMARTER SEE CLEARER DECIDE BETTER

Montage is a wireless presentation solution that helps you meet smarter, see clearer and decide better - bringing together wireless presentation, communication & collaboration and designed to make meetings as productive and effective as possible.

Using Montage in meetings saves time and keeps everyone on the same page by allowing multiple attendees, whether they're across the room or across the world, to simultaneously stream what's on their devices to the main meeting room display.

KEY FEATURES

Multiple Attendees

View up to 6 attendee screens at any one time

In-room & Remote

Join from across the room or across the world

Active Display

Any attendee can go full screen on the main display

File Share

No need to leave Montage to send files to attendees directly

Secure

Password & PIN protected access and full enterprise level encryption

Annotation

Add emphasis to content and expand on ideas
